

FOR IMMEDIATE RELEASE

## **TRANSFORM ORDINARY PLACES INTO SENSATIONAL, EYE-CATCHING SPACES WITH GLASWAL FROM API!**

**TAMPA, FL-** In their quest for distinct, impressive storefront design, retailers across the nation are repeatedly turning to stylish GlasWal Extrusion systems from American Products, Inc. (API), a leading supplier of retail interior storefront systems and exterior storefront solutions based in Tampa, FL.

With over 70 anodized colors and finishes, including brass, copper, muntz and stainless steel, as well as over 1,000 powder coat colors, the American Products, Inc. (API) GlasWal design possibilities are endless! Quality meets style with the precision in house powder coating process and custom color matching capabilities which give retailers the ability to choose the perfect color combination for storefront applications, interior partitions, show windows and functional glass walls.

“GlasWal systems are an excellent choice for providing open, dramatic effects while creating clean lines in storefront designs” says Kerri Beals, General Manager of American Products, Inc. (API). “Retail partners looking to create customized, bold impact are choosing GlasWal components time and again- the fact they have such a wide range of colors and finishes to choose from though is really what puts them over the top.”

Designed for 1/2", 3/8" or 1/4" glass, American Products, Inc. (API) GlasWal extrusions install quickly and easily, which is a huge added benefit for time-pressed contractors who are working hard to meet demanding deadlines and schedules. “GlasWal components are able to be shipped directly to retailers, general contractors and glaziers” Beals adds, “so it becomes a faster, more seamless process and that in turn, makes everyone happier!”

For more information on American Products, Inc. (API) GlasWal extrusion systems, available color selections and other innovative storefront systems, call (813) 925-0144 or visit [www.americanprod.com](http://www.americanprod.com).
